CEO Statement of Support for the Women's Empowerment Principles

We, business leaders from across the globe, express support for advancing equality between women and men to:

- Bring the broadest pool of talent to our endeavours;
- Further our companies' competitiveness;
- Meet our corporate responsibility and sustainability commitments;
- Model behaviour within our companies that reflects the society we would like for our employees, fellow citizens and families;
- Encourage economic and social conditions that provide opportunities for women and men, girls and boys; and
- Foster sustainable development in the countries in which we operate.

Therefore, we welcome the provisions of the Women's Empowerment Principles – Equality Means Business, produced and disseminated by the United Nations Entity for Gender Equality and the Empowerment of Women (UN Women) and the United Nations Global Compact. The Principles present seven steps that business and other sectors can take to advance and empower women.

Equal treatment of women and men is not just the right thing to do – it is also good for business. The full participation of women in our enterprises and in the larger community makes sound business sense now and in the future. A broad concept of sustainability and corporate responsibility that embraces women's empowerment as a key goal will benefit us all. The seven steps of the Women's Empowerment Principles will help us realize these opportunities.

We encourage business leaders to join us and use the Principles as guidance for actions that we can all take in the workplace, marketplace and community to empower women and benefit our companies and societies. We will strive to use sex-disaggregated data in our sustainability reporting to communicate our progress to our own stakeholders.

4. Governance

Policies and procedures are nothing without oversight. Our Leadership team follows a strict governance policy. We maintain ethical standards established for bidding procedures, procurement of subcontractors, material and equipment.

Gazzola utilizes clear internal policies and procedures, modelling institutional governance requirements to assist the ownership group in guiding the business;

Gazzola has introduced for the first time in 2022, an Employee Code of Conduct Policy to go along with our Health & Safety Policies. While an Employee Code of Conduct is not explicitly part of the IHSA COR program, we feel is important to implement improvements and govern our ESP Program at all levels of the organization;

Third parties will continually be retained by Gazzola with expertise around measurement, audit and reporting as required – whether for inclusivity monitoring or financial reporting which will be subject to external audit on a yearly basis.
